CAREER OBJECTIVE

Motivated and detail-oriented Full Stack Developer with a strong foundation in web technologies including Python, JavaScript, React.js. Seeking an entry-level developer or trainer role where I can contribute to real-world projects, support team goals, and continue growing my technical skills.

WORK EXPERIENCE

Associate Software Engineer | Test Yantra Software Solutions | Bengaluru, Karnataka, India | March 2025-Present

- Proficient in writing clean, maintainable JavaScript and Typescript code, with a solid understanding of programming fundamentals and best practices—capable of both building web applications and guiding others through the learning process.
- Experienced in building dynamic, component-based user interfaces using React.js, focusing on reusable design patterns and state management concepts.
- Skilled in designing responsive and accessible user interfaces using HTML5, CSS3 and Tailwind, with emphasis on cross-browser compatibility.

Freelance Frontend Developer | Web2Export | Nov 2024 - March 2025 [Project Link](#)

- Design and develop the front end of a web application using React, Bootstrap, and Vite.
- Coordinate end-to-end project management, including planning, development, and delivery.
- Collaborate with cross-functional teams to troubleshoot and resolve technical issues and optimize performance by 20%.
- Achieve: (1) Real-time problem-solving skills. (2) Ability to work effectively under high pressure.

EDUCATION

Master of Computer Applications

2022 - 2024

Guru Gobind Singh Indraprastha University
