CAREER OBJECTIVE

Motivated and detail-oriented Mern stack Developer with a strong foundation in web technologies including Python, JavaScript, and React.js. Seeking an entry-level developer or trainer role where I can contribute to real-world projects, support team goals, and continuously enhance my technical skills.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap

Backend Frameworks: Node.js, Express.js, Django

Web Technologies: HTML5, CSS3, Responsive Design, Cross-Browser Compatibility

Databases: MongoDB, SQL

Soft Skills: Problem Solving, Collaboration, Time Management, Leadership, Flexibility

EDUCATION

Master of Computer Applications (MCA)

Guru Gobind Singh Indraprastha University, Dwarka, Delhi

Specialization: Computer Science and Engineering | Score: 86%

2022 – 2024

Bachelor of Computer Applications (BCA)

Maharshi Dayanand University, Rohtak, Haryana

Specialization: Computer Science and Engineering | Score: 65.2%

2018 – 2021

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Test Yantra Software Solutions | Bengaluru, Karnataka, India
March 2025 – Present

- Write clean, maintainable JavaScript and TypeScript code following best practices.
- Develop dynamic, component-based user interfaces using React.js.
- Design responsive and accessible interfaces using HTML5, CSS3, and Tailwind.
- Mentor and guide peers by explaining programming concepts and development workflows.

PROJECTS

Test Fresher | Online Coding Practice Platform | React.js, Vite

Live Project: <https://testfreshers.qspiders.com/>

- Improved interactive frontend components for a coding practice platform to enhance user engagement.
- Build responsive UI and dynamic features using React.js and Vite.
- Collaborated with the team to troubleshoot frontend issues and ensure smooth performance.
- Optimized component rendering and state management for applied responsiveness.

Web2Export | Freelance Frontend Development | React.js, Bootstrap, Vite, SCSS

GitHub Repository: <https://github.com/Rishabh728/Web2Export>

- Designed and enhanced the frontend of a web application using React.js, Bootstrap, and Vite for a responsive and interactive user interface.
- Coordinated end-to-end project management, including planning, development, and timely delivery of milestones.
- Collaborated with cross-functional teams to troubleshoot technical issues and optimize application performance by 20%.
- Gained real-time problem-solving experience and strengthened the ability to work effectively under high-pressure scenarios.

Zaroorat | E-Commerce Website | React.js, Tailwind CSS

GitHub Repository: https://github.com/Rishabh728/Zarorat_ecommerce

- Planned and created a responsive e-commerce web application to provide a seamless online shopping experience.
- Built reusable React components for product listings, product details, and user interactions.
- A modern, mobile-first UI using Tailwind CSS to ensure responsiveness and cross-device compatibility.
- Streamlined application performance through efficient component rendering and state management.
- Focused on clean UI/UX design to improve user engagement and accessibility.

Next To Eat | Online Food Ordering Platform | JavaScript, HTML5, CSS3, Bootstrap, Python, Django

GitHub Repository: <https://github.com/Rishabh728/Next-to-eat-store>

- Developed and executed a responsive online food ordering platform with an intuitive and user-friendly interface.
- Enforced smooth navigation and created layouts to ensure seamless usability across desktop and mobile devices.
- Collaborated with backend teams to integrate secure payment gateways, enhancing transaction reliability and user trust.
- Conducted user testing, analysed feedback, and utilized UI improvements to enhance overall customer experience.
- Enhanced application performance and ensured cross-browser compatibility for consistent behaviour across platforms.
